CERTIFICATE OF CREDENTIALS

For Dr. Wolfgang Funk, born on Sept. 17, 1954

Dr. Funk completed his fellowship as a regular fellow of the Ivo Pitanguy Clinic and the 38th Infirmary of Santa Casa General Hospital in Rio de Janeiro, Brazil.

He routinely worked actively and to my full satisfaction in the course of the surgical procedures, taking part in both the preparations as well as in the actual performance of the operations. Dr. Funk was fully evaluated by the Ivo Pitanguy Study Center. We feel that his academic preparation leads him to the degree of both reconstructive and aesthetic surgeon.

Dr. Funk always demonstrated a great deal of interest and extreme diligence during the course of the training as a plastic surgeon, he was highly committed in the course of the planning and also in the discussions involving the individual clinical cases. He proved to be very engaged in this academic training for the degree of a plastic surgeon. As a result of his peaceful composure and correct behavior, he was seen to be equally respected by the patients, the physicians, the nurses and the assistants.

I cannot conceive of any manner of bringing Dr. Funk in disrepute. I consider Dr. Wolfgang Funk to be a competent, respectable and very well-educated plastic surgeon.

Rio de Janeiro, November, 30, 1998.

Ivo Pitanguy, M.D.
